

CheckMark Payroll

Quick Start Guide

CheckMark Payroll Quick Start Guide

Congratulations on your purchase of CheckMark's Payroll Software!

This *Quick Start Guide* provides basic information to help you get started. More detailed information with screen shots can be found in the PDF version of the User's Manual under the **Help** menu in the program.

Macintosh Download Location

The default install location on the hard drive for CheckMark Payroll is: *Macintosh HD\Applications\CheckMark\Payroll\(\year)*

We don't recommend you install this anywhere other than your local hard drive.

Windows Download Location

The default install location on the hard drive for CheckMark Payroll is:
C:\ProgramFiles\CheckMark\Payroll\(\year)

We don't recommend you install this anywhere other than your local hard drive.

Open the CheckMark Payroll Application

You can use either the shortcut or alias that was created or go to the CheckMark folder that was installed and double-click the CheckMark Payroll application.

In order to run, CheckMark Payroll needs a place to save your companies information. Please choose a directory on this computer's local hard drive in which to save the necessary data files.

Using the default directory is recommended.

You can change the location of this directory at any time by using the *Database Manager*, but it is recommended that you do not change this directory once set.

Detailed instructions are located in the Payroll Manual located under the Help menu in the program.

To contact CheckMark Support

- Submit a request online
<https://www.checkmark.com/account/sign-in>, using your email address and customer ID#.
